

Seminar on Special Problems in Condensed Matter Physics

SS 2024

Thursdays, 14:30 - 16:30
Room 25.32.03.51

Remote attendance:
<https://hhu.webex.com/meet/seminars>

- 16.05. MSc. Kateryna Zatsarynna (HHU Düsseldorf)
Andreev levels population dynamics
- 23.05. Prof. Filippo Cardano (University of Naples Federico II) [online only]
**Photonic circuits with spin-orbit photonics
and structured light**
- 06.06. Prof. Eric Andrade (University of São Paulo, Brazil) [online only]
TBA
- 13.06. Prof. Domenico Giuliano (University of Calabria)
TBA
- 20.06. MSc. Viktor Berger (University of Massachusetts) [online only]
**Ergodic grains in non-interacting spin chains:
Stability towards delocalization**
- 27.06. Dr. Claudia Artiago (KTH Royal Institute of Technology, Stockholm)
TBA
- 04.07. Dr. Kiryl Piasotski (Karlsruher Institut für Technologie)
Green's Functions for layered systems
